

CORNELL UNIVERSITY

COMMENCEMENT
OF THE
ONE HUNDRED AND FIFTY-FIFTH
GRADUATING CLASS

MAY 27, 2023

SCHOELLKOPF FIELD
ITHACA, NEW YORK

GREETINGS TO THE CLASS OF 2023

Dear graduates,

When you chose Cornell, you chose not just a university, but a community—a place with a commitment, now 158 years old, to be an institution “where any person can find instruction in any study.”

“Any person,” at Cornell, means that we value difference; that we embrace the diversity of our students, faculty, and staff, and the ways that diversity enriches and advances our academic community. But “any person” has never meant “every person.” Today, as when we were founded, Cornell seeks out individuals with the talent, potential, and ethos to make the most of their time here, and to do the most with the education they will gain: people who will benefit from their Cornell degree themselves, and use it in ways that will also benefit others.

Each of you made the decision to attend Cornell because you knew that you would find here a community dedicated not just to world-class academics, but to a unique mission of knowledge with a public purpose—combining Ivy League excellence with a land-grant commitment to our society, nation, and planet. You’ve learned to explore boldly, to question thoughtfully, and to communicate across difference. Whatever course of study you have pursued, you have learned with, and from, an extraordinary group of Cornellians: developing the knowledge and the skills for lives and careers with a positive impact.

As your time on Cornell’s campus comes to an end, it is our hope that you will leave for your next adventures as generations of Cornellians have before you: with both a world-class education, and the determination to use it well.

Cornell will always be a part of you, just as you will always be a part of Cornell.

Congratulations!

Kraig H. Kayser, MBA ’84
